

CDR-AU-V026

A technical line drawing of a lathe machine, viewed from the front. The machine consists of a headstock on the left, a tailstock on the right, and a bed in the center. The headstock has a large circular flange with a central hexagonal hole. The tailstock has a similar flange. The bed is a long, horizontal structure that supports the headstock and tailstock. The drawing is a black and white line art illustration.
